# Prinect Production Manager Prinect Cockpit.

### **Training content**

- Prinect® Cockpit Introduction: Jobs, Queues, Administration
- Prinect Cockpit Page Processing: PDF Preflight,
   PDF Color Management and Trapping,
   PDF Toolbox Tools, Proof Output of pages
- Prinect Cockpit Layout and Output: interactive layout import, papers and substrates, output sequences, sheet output on proof and plate
- · Planning assistant and presettings on the press

### **Targets**

- Gain basic knowledge on the operation and functionality of Prinect® Cockpit for daily work in commercial printing
- This basic course can be extended with the Prinect<sup>®</sup> Signa Station<sup>®</sup> basic training course

### **Target group**

· Prinect Production users/operators

### Requirements

Basic knowledge of the prepress processes required for commercial printing

### Location

Print Media Center Wiesloch

### **Duration**

2 days

### Note

This course is only available in German language and only offered through Heidelberger Druckmaschinen Vertrieb Deutschland GmbH.

# Folding Carton Gluing Basic Training.

### **Training content**

- Detailed presentation and explanation of the selected training machine
- · Explanation of all protective devices
- Explanation of the basic functions of a folder carton gluer
- Explanation of the operating concept and the various operating points
- Measures for quality assurance/ troubleshooting
- Setting up the machine and production of the following types of packaging:
  - Straightline cartons
- Lockbottom cartons
- Mailing envelopes
- The peripheral Diana Easypacker will also be included in the training

### **Targets**

- Operation of folding carton gluers & automatic insertion and unpacking systems
- · Setup of simple folding carton types

### **Target group**

- · Folding carton gluer machine operators
- · Packaging materials technologists

### **Requirements**

Experience in operating folding carton gluers

### Location

Print Media Center Wiesloch

The training machine is selected in consultation with the customer. The following models are available: Diana Go, Diana Easy, Diana Smart, Diana X-2

### **Duration**

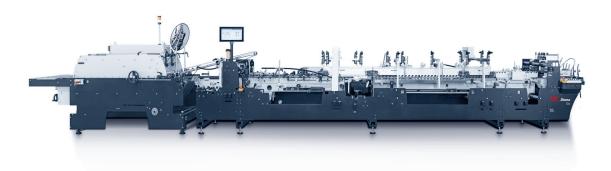

5 days

### Contact, dates & registration

# Folding Carton Gluing Advanced Training.

### **Training content**

- Detailed presentation and explanation of the selected training machine
- · Explanation of all protective devices
- Explanation of the basic functions of a folder carton gluer
- Explanation of the operating concept and the various operating points
- Measures for quality assurance/ troubleshooting
- Setting up the machine and production of the following types of packaging:
  - 4-corner and 6-corner collapsible cartons
- Multi-compartment cartons
- Conical cartons
- Special gluing (in consultation with the participant)
- The following Diana peripherals will be included in the training:
  - Diana Feeder/Diana Packer/ Diana Stack Turner
  - Inspection systems:
     Diana Inspector (inline), Diana Eye (offline)
  - Diana Braille Module

### **Targets**

- Operation of folding carton gluers & automatic insertion and unpacking systems
- · Set up of more complex folding carton types

### **Target group**

- · Folding carton gluer machine operators
- · Packaging materials technologists

### Requirements

- Experience in operating folding carton gluers and setting up simpler folding carton types
- The completed basic training is recommended

### Location

Print Media Center Wiesloch

The training machine is selected in consultation with the customer. The following models are available: Diana Easy, Diana Smart, Diana X-2

### **Duration**

5 days

# Die-cutter **Basic Training.**NEW

### **Training content**

- Detailed presentation and explanation of the selected training machine
- · Explanation of all safety devices
- Explanation of the basic functions of a die-cutting machine
- Explanation of the operating concept and the various control sections
- Measures for quality assurance/error analysis and troubleshooting
- Setting up the machine and producing simple layouts.
  - With and without stripping function
  - Preparation of a make-ready sheet
  - Zone make-ready according to the 70/30 principle

### **Targets**

- $\boldsymbol{\cdot}$  Operating the die-cutting machine
- $\cdot$  Setting up simple layouts

### **Target group**

- · Die-cutting machine operators
- · Packaging materials technologists

### Requirements

Experience in operating flatbed die-cutting machines

### Location

Print Media Center Wiesloch

The training machine is selected in consultation with the customer. The following model is available: MK Easymatrix 106 CS.

### **Duration**

5 days
